

Public and Online Seminars

Helping you help your clients

Welcome to our 2023 seminar programme!

The 2023 programme has been designed to give you the advice, tips, news and information you need in your day to day roles with the training format or formats you prefer - in public venues or online.

Our flagship Quarterly Tax Updates with Tim, Giles and Mark continue at the heart of the programme, available in ten venues across England or online via zoom. We continue to restrict numbers on all seminars, in venue or online, to ensure you get the most out of the sessions and, as demand for online has increased, so have the number of seminars we offer with each online quarterly update running seven times in 2023.

The Quarterly Tax Updates are supported with four more seminars covering exactly what you need to know in 2023. Each seminar runs on zoom multiple times to fit around your busy schedules.

Giles and Mark will present our Finance Bill sessions, Guy Loveday will update delegates with the latest accounting news and, we are delighted to welcome back Rebecca Benneyworth and Dean Wootten who will be telling us everything we need to know about Making Tax Digital and giving practical tips and advice on the key aspects of VAT respectively.

2023 Package Deals and Pricing

Our prices remain unchanged with the four Quarterly Tax Updates available for only **£199 plus VAT** with additional seminars only **£50 plus VAT** for all bookings made before 31st December 2022.
