- **Convenient locations**
14 accessible venues

See our special offers -
prices from less than £50 + VAT
per delegate per seminar

Great Lecturers • Great Content • Great Value

Seminar Guide

Great Lecturers. Great Content.

Tax Update Tim Good, Giles Mooney or Mark Ward

Whether quarterly or six monthly, the PTP tax updates are the heart of what we do - training that offers you a quick and effective way to ensure you are alerted to developments significant to your practice while retaining an overall awareness of all important developments in UK taxation. Cases and tips, HMRC press releases and articles will be discussed at these seminars with an explanation of not just what is happening but why it matters to you and your clients.

Finance Act Tim Good, Giles Mooney or Mark Ward

The Government's constant reform of ancient and modern legislation can mean it feels like those in general practice are constantly trying to keep up with the changes. 2019 is unlikely to be any different. What further changes can be made to stimulate business and raise taxes? This seminar will explain what has been said, what wasn't said and why it matters.

Annual Accounting Update Guy Loveday

Once it was only tax that changed every year but now accounting is following suit. This year's annual accounting update will include details and advice on the latest changes to UK GAAP for small and medium sized businesses and will consider what the new rules mean to incorporated and unincorporated businesses. As usual the last 20 minutes will be devoted to auditing developments for those for whom it is relevant.

VAT Update Dean Wootten

Always a popular event with delegates. Dean will cover everything the general practitioner needs to know including some excellent VAT tips and a review of VAT traps.

Specific areas include: when to charge VAT and at what rate; when to recover VAT; land and property issues; international transactions; compliance pitfalls; and Making Tax Digital.

Indispensable Law for Advisers and their Clients Louise Dunford

This course covers the key legal issues relevant to advisers dealing with small and medium sized businesses. It includes:

- GDPR – where are we now?
- Company formation issues
- Directors' duties
- The insolvent customer
- Pitfalls of buying and selling a business including TUPE developments
- Professional negligence – the fallout from Manchester Building Society
- Redundancy, dismissals and discrimination
- Money Laundering Update

Complement your face to face CPD with a subscription to one or more of our digital training packages:

- TAXtv
- AccountingTV
- MLR Training
- GDPR Training
